PREFACE

This 1984 edition of *State-Approved Schools of Nursing—LPN/LVN* reports the results of NLN's annual survey of LPN/LVN programs for Fall 1983. As in the past, NLN has maintained a response rate of 100% for this annual survey. The publication provides a comprehensive directory of all LPN/LVN programs in the country, according to alphabetical state listings.

For each school, the following information is included: address, telephone number, director, type of program, duration, status of state board approval and NLN accreditation, administrative control, financial support--as well as admissions, enrollments, and graduations.

The listings of these schools were obtained from boards of nursing for states or other legal jurisdictions of the United States. For your convenience, a directory of boards of nursing is also included in the publication.

Several schools of nursing responded to the questionnaire, but did not include permission to publish the information. In these cases, denial of permission is indicated in the listing, although the statistical information is included in the summary table at the end of the directory, where the identity of individual schools or programs cannot be discerned.

Under the revised format for NLN's research publications, the complete findings of the League's LPN/LVN survey will be published in *Nursing Data Review—1985*. This will report the updated nationwide trends for the LPN/LVN student population, spanning a 10-20 year period.

Nursing Data Review—1985 will also include findings from the other NLN research modules: *Nursing Student Census with Policy Implications, Nursing Faculty: Socioeconomic Trends,* and *State-Approved Schools of Nursing—RN 1984*. We hope users will find this format helpful in facilitating access to NLN's research findings.
